How Do We Use Student Engagement Data to Improve Instruction?

Webinar

What research-based strategies to improve student engagement are available?

How can teachers and schools use data to monitor engagement over time?

Learn how to:

- Target individual and groups of students for engagement strategies at the student, classroom, and school levels.
- Tailor strategies to specific engagement dimensions (academic, affective, behavioral, and cognitive).
- Monitor student engagement through multiple types of data.

Presenter:

- James Appleton, Ph.D., Director, Office of Research & Evaluation, Gwinnett County Public Schools, Georgia
